

Our Business is Research

2017 Edition

Summary.

U.S. Business Reporter is an online business and economic information resource providing corporate, financial, industry, marketing, retail, investment, and legal research intelligence in a concisely comprehensive integrated electronic platform.

An academic institutional subscription to U.S. Business Reporter offers users unlimited and unparallel access to the dynamic world of business and industry.

- Millions of comparable data and statistics on industries, companies, and markets.
- Forward-looking industry, retail, investment analysis and company perspectives.
- Insightful and creative commentary from expert analysts.
- Periodic industry, economic, retail, and investment report updates to ensure you have the latest detailed analysis.

The U.S. Business Reporter has a wide variety of product applications that can be used and customized across a company's functional departments in marketing, strategic planning, finance, administration, legal, purchasing, or operations. Whether you are advising clients on entering new markets, launching products and services targeted to new consumer market segments, benchmarking a company against its competitors, or investigating the growth potential of specific industry sectors, U.S. Business Reporter offers research you can depend on.

Its simple, user-friendly interface makes it easy to navigate from statistical data points to supportive written report analysis.

U.S. Business Reporter business database supports teaching and research across a wide range of disciplines:

- Business Administration
- Economics
- Humanities
- Social Sciences
- International Business
- Hospitality Management
- Food Marketing
- International Relations
- Environmental Health
- Public Administration

Access a vast amount of research through a single web platform.

U.S. Business Reporter is organized into 9 major categories which consists of Corporate Research, Financial Research, Industry Research, Retail Research, Market Research, Economic Research, Business Law, Investment Research, and Business Statistics. Sub-sector categories are provided underneath these major categories on the home page. The sub-sector categories allows a user to speed directly to a specific content area. Our user-friendly interface reduces the number of steps necessary to reach the information you need.

U.S. Business Reporter gives your students more and better choices in research reference sources and tools. The product is equally applicable at both the undergraduate and graduate levels of study.

U.S. Business Reporter provides your students the information components to assemble their own reports, studies, term papers, and dissertations.

U.S. Business Reporter has a strong editorial focus which has made our business and economic reports some of the most highly sought resources for students.

Unique and Unparalleled Content.

Students, faculty and staff have access to a vast array of unique and proprietary research that is not available from any other source. Students are intrigued by the insightful analysis and thoughtful presentation of our information.

Statistics and analysis across industries, countries, and markets are continuously updated to ensure that users have access to the latest content.

Real World Relevance.

U.S. Business Reporter prepares students for the real world they will enter after graduation. Our product allows students to create projects and case studies relevant to the business challenges they will encounter in the corporate world. This includes strategic planning, market entry studies, market assessment, merger and acquisition analysis, competitor intelligence, benchmarking, and new business development.

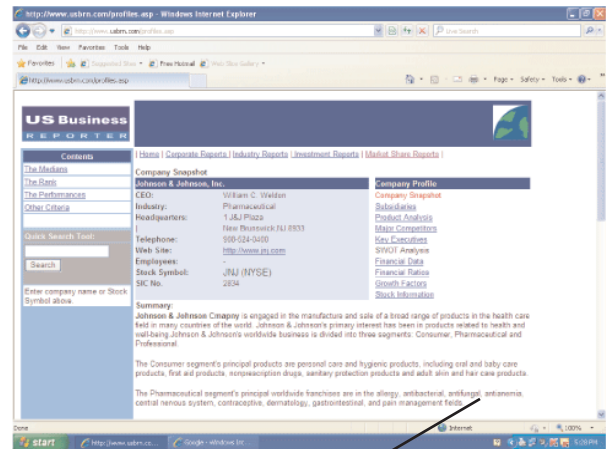

In addition, students have access to the same high value research as the world's top banks, consultancies, manufacturers, retailers, and government agencies. Furthermore, with U.S. Business Reporter becoming a fixture in the corporate world, students can easily transition their skills and knowledge of our product after job placement in the corporate world.
